Resumo

Hi there! :) I'm a Brazilian sustainability and ESG professional based in Berlin, Germany — driven by purpose, curiosity, and good coffee.I have experience across B2B sales, account management, sustainability, customer relationships, and stakeholder engagement. Resilient and detail-oriented, I believe that sustainable impact is built through planning, structured processes, teamwork, and shared purpose. I'm also part of the Wynter team, connecting B2B professionals with paid opportunities to share feedback through product and market research studies. I'm currently exploring new opportunities in B2B Sales, Business Development, ESG, and Sustainability. Feel free to reach out, I'd love to connect!

Experiência

Wynter

MOSS.Earth

Account Executive

outubro de 2022 - dezembro de 2023 (1 ano 3 meses)

- Contributed to climate action and Amazon rainforest conservation by enabling organizations to offset emissions through REDD+ and VCS carbon credits, resulting in the preservation of over 1 million trees annually (equivalent to 2.000 football pitches).
- Managed a portfolio of 300+ organizations across Latin America, ensuring 70% renewal through data-driven engagement, transparent communication, and relationship management.
- Built and automated HubSpot cadence flows across 150+ foreign organizations and 450+ national companies, improving responsiveness and scaling organizational efficiency.
- Led virtual meetings and served as a point of contact for international stakeholders, coordinating cross-regional outreach to support climate-positive initiatives.
- Delivered an organizational OKR by structuring and centralizing three years of sales documentation in Notion, including playbooks and onboarding materials, improving process clarity and knowledge sharing for new hires.

WayCarbon
Business Development
agosto de 2021 - agosto de 2022 (1 ano 1 mês)

- Maintained a SaaS “Climas” enterprise customer portfolio (~80 companies), supporting ESG software adoption and climate-related reporting.
- Renewed 20+ key accounts (annual and multi-year) and contributed to ~25% upsell adoption through structured follow-ups, relationship management, and needs-based client engagement.
- Prepared technical and commercial proposals related to sustainability data usage, climate/ESG reporting, and corporate governance requirements.
- Developed and implemented a Google Calendar-based validation system to manage proposal review cycles, improving efficiency and ensuring timely submissions.
- Created and maintained a customer and contract database to improve portfolio visibility, support internal coordination, and strengthen post-sales collaboration with technical teams.
